

Power School for Parents

PowerSchool provides real-time access to your student's grades and attendance, and your school's activities. You can *view* information on PowerSchool at any time, but you can also set up the email notification options so that you *are sent* information about your child's grades or attendance.

Once you type in an email account of your choice into the email notification screen, and choose a notification option, you will receive updated student information on a regular basis.
